

*WorkSafe Victoria is the state's health and safety regulator and we also manage Victoria's workers compensation scheme.*

*Our role is to reduce workplace harm and improve outcomes for injured workers, and we aim to do this in a financially sustainable way.*

*In prevention, our efforts are focussed on education, inspections and enforcement. We run public education and information campaigns to help Victorian workplaces look after their employees and provide a healthy and safe environment. We also conduct targeted and proactive workplace inspections and prosecute those negligent employers who put the safety of their people at risk.*

*While preventing injuries is always our first preference and priority, when a workplace injury does occur, our job is to improve outcomes for those who are injured. Supporting them to recover and, where possible, return to safe work.*

*At WorkSafe, we have a bold ambition for Victoria to be the safest place to work in Australia, and one of the safest in the world by 2024.*
